EXPERIENCE

• Full Stack Developer | HINT Bharat | (June 2024 – May 2025)

- Developed and optimized backend RESTful APIs using Node.js and Express, reducing data access time by 40%, resulting in faster load times and improved user experience.
- Integrated MongoDB for efficient data storage, indexing, and querying, improving response time and scalability.
- Implemented WebSocket for real-time communication features such as live updates and notifications, achieving seamless data synchronization without requiring page refreshes.
- Ensured backend robustness by implementing data redundancy strategies and secure data handling practices, lowering the risk of data loss by 30%.
- Applied JWT and cookie-based authentication for session management and improved app security.
- Constructed a modular and scalable frontend architecture using React.js and Redux, enabling consistent state management and reducing debugging time by 40%.
- Created reusable UI components, improving frontend development speed and maintainability.
- Collaborated closely with UI/UX designers to translate design mockups into responsive, user-friendly interfaces.

• Web Developer Intern | TECHPLEMENT | (Jan 2024 - Feb 2024)

- Spearheaded the Full-Stack development of a cutting-edge Social Media dashboard project as the team leader, for mobile and web applications, achieving 95% of the ideal standards
- Translated Figma designs into mobile and web applications ensuring 98% accuracy.
- Ensured 100% mobile responsiveness across screen sizes and orientations, optimizing user experiences effectively.
- Designed and implemented APIs, ensuring seamless database connectivity for clients.

EDUCATION

Bachelor of Technology in Computer Science Engineering | CGPA: 8.9

July 2020 – July 2024

Dr. Akhilesh Das Gupta Institute of Technology & Management (Affiliated to GGSIPU)

Senior Secondary Education (CBSE) | Percentage: 92.4%

April 2019 – July 2020

Govt. Boys Sr. Sec. School No.1, Shakti Nagar, Delhi

SKILLS

Languages: C++, C, Python, HTML, CSS, JavaScript (ES6+), SQL

Technologies: React, MongoDB, Tailwind CSS, Express.js, NodeJS, Next.js, RESTful API, JSON, AWS Cloud, TypeScript, Redux

Tools: VScode, Git, GitHub, Figma, Netlify, Wordpress, Cursor

Familiar: MySQL, Linux, CI/CD, UI/UX, React Testing Library, Agile/Scrum

Coursework: OOPs, DBMS, Data Structures & Algorithms, Operating Systems, Computer Networks, System Design

Soft Skills: Communication, Continuous Learning, Collaboration

PROJECTS

UI to Code Converter | AI-Powered Developer Tool | [Live Link](#) | [Github Link](#)

June 2024 – Dec 2024

- Developed an AI-powered tool where users can **upload UI images**, and the system **automatically generates production-ready frontend code**.
- Integrated **computer vision and LLM APIs** (e.g., Gemini, GPT-4 Vision) to interpret design components and output clean HTML/CS/JS.

CrowdVault: A Secure Crowdfunding Platform | [Live Link](#) | [Github Link](#)

Mar 2024 – May 2024

- CrowdVault is a secure crowdfunding platform designed to connect entrepreneurs with global investors. Implemented advanced authentication and a unique batch funding model to enhance security and reduce investment risks.
- Established a secure payment gateway through Stripe, and MetaMask ensuring a smooth and secure checkout process.

PropertyHub: A Real Estate Web Application Project | [Live Link](#) | [Github Link](#)

Nov 2023 – Dec 2023

- Orchestrated the development of a groundbreaking MERN stack real estate platform, revolutionizing property transactions and enhancing user satisfaction.

ACHIEVEMENTS

☆ Got 92.4 percent in 12th class (CBSE).

☆ Successfully solved over 600+ Data Structures and Algorithms (DSA) questions on LeetCode.

☆ Earned GATE qualification in 2024, validating comprehensive understanding and skills in computer science subjects.
